CHAPTER 1 GENERAL

Article 1

This image is a complex, abstract pattern composed of numerous small, black and white geometric shapes. The shapes include triangles, squares, and lines, arranged in a dense, non-repeating manner. The overall effect is a textured, almost crystalline surface with a high degree of contrast between the black and white areas. The pattern appears to be a digital or printed representation of a physical material, possibly a textile or a wall covering.

Article 2

Figure 1. The effect of the number of trials on the number of correct responses. The number of correct responses was plotted against the number of trials for each condition. The number of correct responses increased with the number of trials for all conditions. The number of correct responses was highest for the condition with the highest number of trials (10 trials) and lowest for the condition with the lowest number of trials (2 trials).

A complex musical score for a string quartet, featuring four staves with various musical notations including notes, rests, and dynamic markings. The notation is dense and includes many slurs, ties, and dynamic markings such as *pp*, *ppp*, *f*, and *ff*. The score is written in a standard musical notation style with a key signature of one flat and a time signature of 4/4. Article 9

A musical score for the song 'The Rose Tree'. The score is written for a single melodic line on a five-line staff. The key signature has one sharp (F#), indicating the key of D major. The time signature is 4/4. The melody consists of a series of eighth and quarter notes, with some rests. The lyrics 'The Rose Tree' are written below the staff, aligned with the notes. The score is presented in a clean, black-and-white format with a clear staff and notes.

This is a large, abstract, black and white graphic. It consists of a dense, chaotic pattern of small, irregular shapes and lines, resembling a complex, textured surface or a highly detailed, abstract drawing. The pattern is composed of many small, dark, irregular shapes, some of which are elongated and pointed, others are more rounded and blob-like. These shapes are scattered across the entire area, creating a sense of depth and complexity. The overall effect is that of a highly detailed, abstract drawing or a complex, textured surface.

The pattern is composed of many small, repeating units that form a larger, more intricate structure. The black shapes are scattered throughout the white background, creating a high-contrast, visually stimulating effect. The arrangement of the shapes suggests a random yet ordered process, similar to a random walk or a fractal-like growth pattern. The overall composition is balanced and harmonious, despite the apparent chaos of the individual elements.

Section 2 Supervisory Committee

Article 169 The Company shall establish a Supervisory Committee.

Article 170 The Supervisory Committee shall be composed of five supervisors, one of whom shall be the chairman of the Supervisory Committee.

The appointment and dismissal of the chairman of the Supervisory Committee shall be passed by more than two-thirds of its members.

Article 171 The Supervisory Committee shall be composed of shareholder representative supervisors, independent supervisors and employee representative supervisors. The shareholder representative supervisors and independent supervisors shall be elected and dismissed by the general meeting, and the employee representative supervisors shall be no less than one-third of the members of the Supervisory Committee, and democratically elected and dismissed by the Company's employees.

Article 172 The Supervisory Committee shall be accountable to the general meeting and exercise the following functions and powers according to laws:

- (1) to examine the Company's financial standing;
- (2) to supervise the directors and senior management officers to ensure that they perform their duties to the Company not in violation of any laws, administrative regulations or these Articles of Association, and to put forward suggestions for dismissing any directors or senior management officers who are in violation of laws, administrative regulations, these Articles of Association or resolutions of the general meetings;
- (3) to demand rectification made by a director and any other senior management officers when the act of the foregoing persons damages the Company's interests;
- (4) to verify the financial information such as the financial reports, business reports and profit distribution plans and others to be submitted by the Board to the general meetings and, should any queries arise, to entrust, in the name of the Company, certified public accountants and practicing auditors to conduct a review thereof;
- (5) to propose to convene an extraordinary general meeting and to convene and preside over general meetings when the Board fails to perform such duties of convening and presiding over general meetings;

Figure 1 displays a 4x12 grid of small plots, each representing the spatial distribution of a different species across 4 replicates. The species are labeled in the first column (1 to 12), and the replicates are labeled in the first row (1 to 12). Each plot shows a grid of points representing the spatial distribution of a species. The plots show various patterns of distribution, including clumped, uniform, and random.

Article 202

A large, abstract, black and white graphic consisting of a dense, chaotic pattern of small, irregular shapes, possibly representing a microscopic view of a material or a complex data visualization. The shapes are scattered across the entire page, creating a textured, almost crystalline appearance. Some shapes are solid black, while others are white with black outlines, giving the impression of a complex, multi-layered structure. The overall effect is one of intense detail and complexity, suggesting a microscopic or molecular-level view of a material.

Article 204

The figure consists of eight small, square images arranged in two rows and four columns. Each image shows a person's face and head in profile, facing right. The images are black and white and appear to be sequential frames from a video or a series of photographs. The person's head is tilted slightly upwards, and their eyes are closed. The images show the person's face from the nose up, with the head and neck visible. The background is dark. The images are arranged in a grid, with four images in the top row and four in the bottom row. The images are numbered 1 through 8, starting from the top left and moving right, then down to the bottom row.

1. *Chlorophyll a* (Chl *a*) is the primary photosynthetic pigment in most plants and algae. It is a green pigment that absorbs light energy in the blue and red regions of the visible spectrum.

2. *Chlorophyll b* (Chl *b*) is an accessory pigment found in higher plants and green algae. It absorbs light energy in the blue and orange-red regions and transfers the energy to Chl *a*.

3. *Carotenoids* are a group of pigments that include carotenes and xanthophylls. They absorb light energy in the blue and green regions and transfer the energy to Chl *a*.

4. *Xanthophylls* are a subset of carotenoids that play a role in photoprotection by dissipating excess light energy as heat.

5. *Phycobilins* are water-soluble pigments found in cyanobacteria and red algae. They absorb light energy in the blue and green regions and transfer the energy to Chl *a*.

6. *Anthocyanins* are flavonoid pigments that give plants red, purple, and blue colors. They are not directly involved in photosynthesis but can protect plants from damage by absorbing excess light energy.

7. *Chlorophyll c* (Chl *c*) is an accessory pigment found in some algae. It absorbs light energy in the blue and green regions and transfers the energy to Chl *a*.

8. *Peridinin* is a carotenoid pigment found in dinoflagellates. It absorbs light energy in the blue and green regions and transfers the energy to Chl *a*.

9. *Alloxanthin* is a carotenoid pigment found in some algae. It absorbs light energy in the blue and green regions and transfers the energy to Chl *a*.

10. *Diatoxanthin* is a carotenoid pigment found in diatoms. It absorbs light energy in the blue and green regions and transfers the energy to Chl *a*.

CHAPTER 17 APPOINTMENT OF AN ACCOUNTING FIRM

Article 214

When the appointment of an accounting firm is made, the firm shall be deemed to have accepted the appointment unless it declines the appointment within the time specified in the appointment.

The appointment of an accounting firm shall be subject to the approval of the board of directors, and the board of directors shall have the right to revoke the appointment at any time.

This image displays a highly complex, multi-layered fractal pattern. The structure is composed of numerous small, interconnected geometric shapes, primarily triangles, which form a larger, intricate, and self-similar overall shape. The pattern is rendered in a dark, almost black, color, with some lighter, greyish, and brownish tones visible in the background, suggesting a 3D or layered effect. The overall appearance is that of a highly detailed, multi-colored, and multi-layered geometric structure, possibly a Sierpinski triangle or a similar fractal, rendered in a dark, almost black, color.

1. *Phylogenetic relationships*—Phylogenetic relationships among the 10 species were determined using the parsimony method of Fitch (1985) and the maximum-likelihood method of Felsenstein (1981) as implemented in the PHYLIP package (Felsenstein 1993). The parsimony analysis was performed using the heuristic search option with 100 random starting trees. The maximum-likelihood analysis was performed using the GTR + I + G model of nucleotide substitution (Felsenstein 1981) with the gamma distribution of nucleotide substitution rates set at 4 categories. The gamma distribution was estimated using the program GAMMA (Felsenstein 1993). The gamma distribution was estimated using the program GAMMA (Felsenstein 1993). This image is a complex, abstract black and white pattern. It consists of numerous vertical lines of varying heights and widths, interspersed with small, irregular black shapes and dots. The overall effect is a dense, textured composition that suggests a rhythmic or melodic structure, similar to a musical score or a complex data visualization. The pattern is composed of many small, repeating elements that create a sense of movement and depth.

CHAPTER 21 SETTLEMENT OF DISPUTES

The image is a large, abstract, black and white graphic. It features a dense, textured surface composed of numerous small, dark, irregular shapes and lines, creating a complex, almost organic pattern. The overall effect is one of depth and detail, reminiscent of a microscopic view of a material or a close-up of a rough, weathered surface. The composition is dominated by these intricate details, with no discernible text or figures.

This graphic is a complex, abstract composition of black and white elements. It features a dense arrangement of small, irregular shapes, including triangles, circles, and lines, which are scattered across the page. The overall effect is one of a highly detailed, textured surface, possibly representing a map or a stylized representation of a natural phenomenon like a forest canopy or a celestial map. The shapes are not uniform, creating a sense of organic growth or chaotic order.
